SUMMARY

Recent Computer application graduate with a strong foundation in software development, Web development and project management. Experienced in working on academic projects involving Java, Python, and SQL, and focused on web development and UI/UX design. Proven ability to learn quickly and adapt to new challenges, with excellent problem-solving skills and a passion for technology. Seeking an entry-level software development role where I can leverage my skills and enthusiasm to contribute to innovative projects and grow within a dynamic team.

EDUCATION

Bachelor of Computer App	J.C. Bose university of science and technology YMCA(Faridabad)	2021 - 2024

SKILLS

Languages	PHYTON, JavaScript, JAVA, C++
Frontend Technologies	React, JavaScript, HTML, CSS, Bootstrap,Talwind
Database	MongoDB, MySQL
Soft Skills	Leadership, Team Work, Problem Solving, Time Management

PROJECTS

Weather App : The Weather Application is a web-based application that allows users to get real-time weather updates for a given location. Built using HTML, CSS, and JavaScript, the application fetches weather data from a third-party weather API and displays it in a user-friendly format. This project aims to provide users with current weather details, including temperature, humidity, wind speed, and weather conditions, for any city or location. Live at: https://sumitgoyal8920.github.io/Weather--App//

Authentication system (React.js) : Developed a responsive authentication system using React.js with Login , signup, and logout functionality. Implemented forms validation (Email, password match, terms acceptance) and maintained clean component structure for scalability. Built with vanilla CSS and fully mobile-responsive layout .

Personal portfolio website : I developed a personal portfolio website using HTML, CSS, JAVASCRIPT, BOOTSTRAP to showcase my frontend development skills, Projects and resume. The website is fully responsive and user-friendly, designed to provide a smooth browsing experience across devices.it includes detailed sections about my work , a contact form and link to my GITHUB and LINKDIN profiles.
